charity: water

WHY WATER

785 million people across the world still live without clean water. That's nearly ten times the population of the UK.

The majority live in isolated, rural areas and spend hours every day walking to collect water for their families.

When a community gets access to clean water, it **changes everything**. It improves health, increases access to food, grows local economies, and helps children spend more time in school.

NUMATIC'S IMPACT

Numatic have partnered with charity: water, funding 5000 litres of clean water with every 244NX sold.

OUR APPROACH

100% Model: When you donate, every penny goes straight to clean water projects. Philanthropists pay our overheads.

Proving It: When projects are complete, we prove them with GPS coordinates and photos of clean water flowing, so you can see exactly how everyone has made a difference.

Local Partners: We work with local experts and community members to find the best sustainable solution in each place we work.
